

Heavy goods vehicle charge in the Netherlands

On the road to a reliable and user-friendly charging system

Ministry of Infrastructure
and Water Management

Heavy goods vehicle charge (HGVC) in the Netherlands

An update

Kees van der Burg, Director General for Mobility

Coalition Agreement 2017-2021

- Introduce HGVC as soon as possible
- Following neighboring countries
- Distribution of the revenues in consultation with the transport sector

Goals

- Level playing field for the transport sector
- Sustainable and innovative transport sector

Policy Framework

- Vehicles and roads
- Tariffs
- Collection
- Enforcement
- Spending of the revenues

Challenges

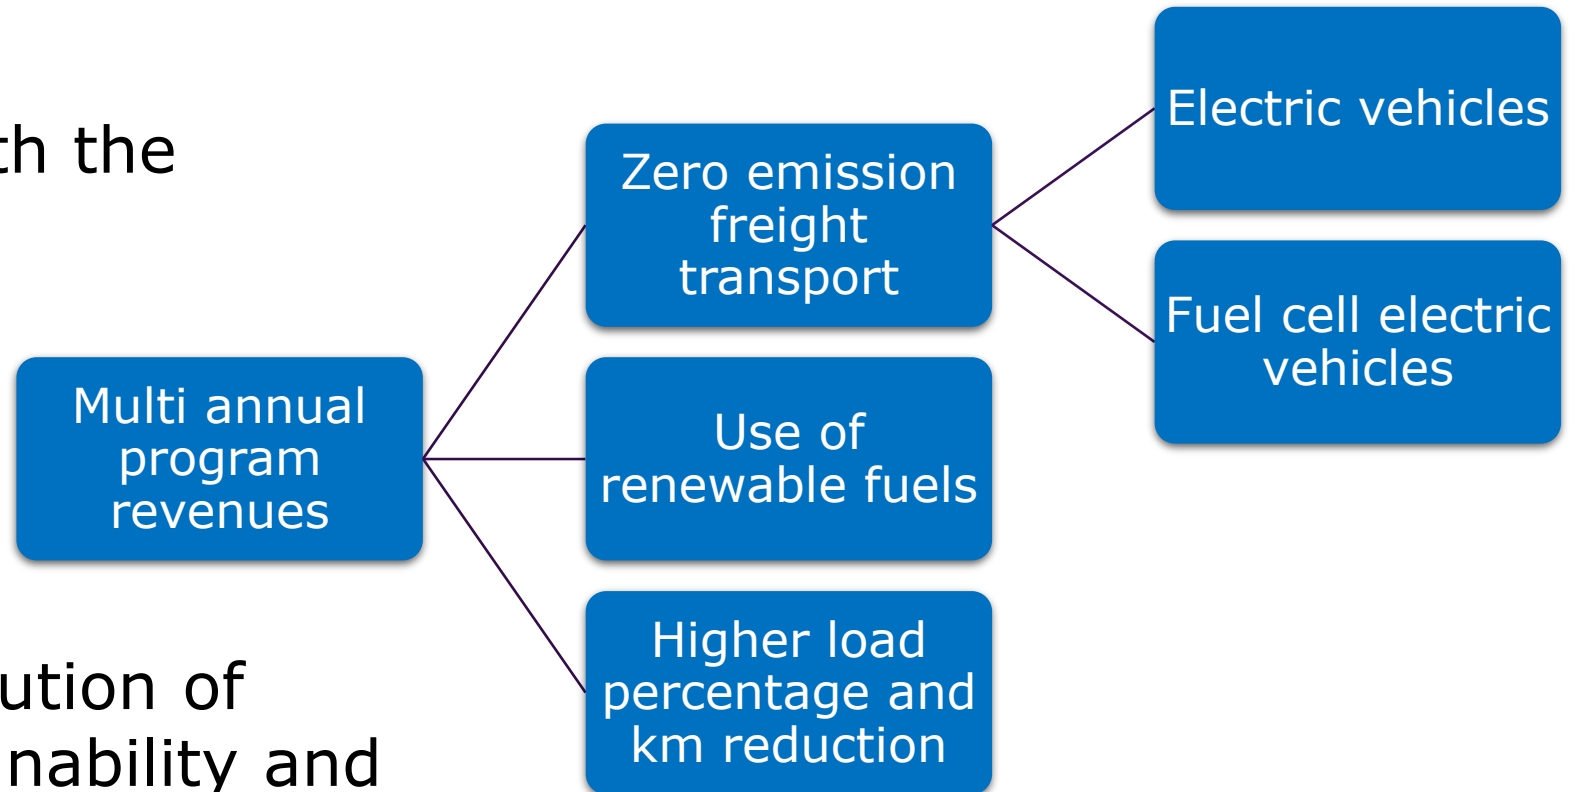

- Road network
- Vehicles and exceptions
- Tariff differentiation
- Revenues spending

Sustainable and innovative transport sector

- In collaboration with the transport sector.

- Program for distribution of revenues for sustainability and innovation of the transport sector

EETS and MSP

- Give way to EETS service providers
- Aim for a small Main Service Provider (MSP)

Procurement

- Accreditation
- Main Service Provider (MSP)
- Observation
